30 August - 6 September 1986

OC-PBS

25X1 Arrangements have been made for members of the Comptroller's
staff to visit [] on
25X1 12 September, accompanied by C/PBS. The Comptroller requested a
briefing and tour to help his staff become more knowledgeable of
[] current capabilities and future requirements.

OC-CS

25X1 1. The Agency Contract Review Board has granted approval
25X1 to negotiate and award a firm fixed price contract to []
[] to provide Packet Assembler/Disassembler
(PAD) product enhancements in support of Project MERCURY.

25X1 2. Negotiations were conducted with []
25X1 [], for the purchase of Time Division Multiple Access
(TDMA) Simplex Circuit Card Enhancements and first production of a
TDMA Processor Circuit Card Assembly. A firm fixed price contract
with a milestone payment plan has been negotiated resulting in
significant savings.

OC-MPS

25X1 [] has been reassigned to the OIT/General
Operations Group, Data Voice Processing Activity, as the Chief
of Operations. He is scheduled to depart MPS circa 17 September.

OC-AMD

1. OC representatives visited the TESST Electronics School
to brief candidates on the new TESST Co-op Program. Of the 22
candidates that were in attendance, 17 were successful in passing

an initial electronics test and were given further processing interviews on 10 September.

2. The Security Officer has been coordinating with the OS/Domestic Security Branch concerning several recent self-reported security incidents from OC employees. That office has been extremely cooperative (and generous) in allowing the Security Officer to adjudicate these incidents "in-house" with his recommendations that security violations NOT be issued, if possible. He has been extremely successful, although if such incidents repeat in the same numbers experienced this week, our luck may run out. Let's be CAREFUL!

25X1 3. Work continues on the scripting for the Communications School's (CS) New Student Orientation television production. The [redacted] CS overview television production script was finalized on 4 September, and the program has been targeted for completion on 19 September.

25X1 4. [redacted] a Career Trainee assigned to the Communications School Group's Instructional Support Department, has completed research for a report on Artificial Intelligence and Expert Systems and how they can be utilized in a training environment. A full report on this subject will be forwarded to OC management in the near future.

OC-CSDOC-ED

1. MERCURY Program:
